

1.1 What is a business?

# Terminology exercise

**Check that you understand the terminology used in this subtopic by dragging the correct word into each space.**

Businesses react to \_\_\_\_\_ in the external environment by using \_\_\_\_\_ to meet human needs, while also considering \_\_\_\_\_ and \_\_\_\_\_ environmental, social, and economic \_\_\_\_\_.

Businesses are systems that use \_\_\_\_\_ and financial inputs, combining them through \_\_\_\_\_ to create \_\_\_\_\_. Businesses \_\_\_\_\_ operate in the \_\_\_\_\_, extracting raw materials. They operate in the \_\_\_\_\_, combining resources to manufacture goods. And they operate in the \_\_\_\_\_, selling goods and services. Businesses also operate in the \_\_\_\_\_, processing information necessary for work in all the other sectors.
